

# The polluted atmosphere as a shallow domain

Nora Juhasz  
DISIM, University of L'Aquila, Italy  
ms.juhasz.nora@gmail.com

## The equations of the polluted atmosphere

Navier – Stokes equations combined with convection–diffusion:

EQST 1  
EQST 2  
EQST 3  
EQST 4  
EQST 5  
EQST 6

Smart note on one of the equations:  
% EQST 6 comment

The smart comment in details.

## Shallow domain in fluid dynamics

Discuss shallow domains. Ocean, salinity, atmosphere, pollution.

**Fancy comment**  
Exciting and clever highlight.

## Shallow domain in fluid dynamics

Discuss shallow domains. Ocean, salinity, atmosphere, pollution.

## Compactness

Issues.  
\Compactness stuff.  
More compactness stuff.

Let's see some figures.

Fig. 1: A local slice of the atmosphere

## Useful Macro Within Block Nodes

There are three types of colored boxes/blocks that you can use inside block nodes to highlight information.

### Theorem

Statement

\innerblock{Theorem}{Statement}

Text

\innerblockplain{colorone!80!}{Text}

Text

\coloredbox{colorthree!50!}{Text}

Let's see some figures.

Fig. 2: A local slice of the atmosphere

There are also callout blocks that allow for a more interesting layout of the poster.

\calloutblock[rotate angle]{from coordinate}{coordinate}{Block Width}{Block Content}

The alias for such blocks is *note*.
